SUMMARY

I am a frontend developer with about 5 years experience working with clients/companies from around the world, providing javascript/frontend development. I help companies and agencies build standards-compliant and clean frontend foundations for fast, accessible and responsive websites and applications.

I work with small and medium-sized businesses, design teams and agencies, building fast, responsive and usable frontends, with a strong focus on performance and UX.

EXPERIENCE

Lead Frontend Developer

at **Sheypoor**

11/2015 - Ongoing

Dubai, UAE and Tehran, Iran

Sheypoor is one of the lead classifieds marketplaces in Iran with over 1.5M user sessions per day.

Tools and technologies I used:

Knockout.js, Browserify, Gulp, NPM, SCSS, Volt(Twig), Pug(Jade), React, Redux, Redux-Sagas, React-Native, Git

Main focuses and projects:

- Developed the new UI, focusing on performance, page size, and user experience.
- Developed Sheypoor AMP version.
- Developed Sheypoor's real-time messaging system over XMPP with only 40kB JS size.
- Created a mobile app written with TypeScript, React, Redux, Redux-Sagas and React-Native.

TOOLS/SKILLS

JavaScript

(ES5/ES6/TypeScript)

Version controllers

(Git/TFS/...)

Task runners

(NPM scripts/Gulp/Grunt/...)

Bundlers

(Browserify/Webpack/Rollup/...)

React/Redux/React-Native

(Redux-Sagas/Redux-Thunk/...)

HTML5/CSS3

(Template engines/CSS preprocessors)

Knockout.js

jQuery
