SUMMARY

Creative Senior Frontend Developer with 5+ years of experience leveraging JavaScript to build responsive websites, mobile apps, and interactive features that drive business growth and improve UX. A detail oriented person, very good learner and contributor.

EXPERIENCE

Lead Frontend Developer

at **Sheypoor**   📅 11/2015 - Ongoing   📍 Dubai, UAE and Tehran, Iran

Sheypoor is one of the lead classifieds marketplaces in Iran with over 1.5M users per day.

Missions:
- Work along with an experienced Swedish team to migrate Sheypoor project from Dot-Net to PHP.
- Lead the frontend team to manage bugs and features with a strong focus on user experience and agility.
- Monitor Sheypoor site performance and keep site's page size below 300kB.

Main projects:
- Develop the new website's UI, focusing on performance, page size, and user experience.
- Develop Sheypoor's real-time messaging system over XMPP with only 40kB JS size.
- Develop Sheypoor AMP version and assist SEO team to keep an eye on SEO.
- Develop an app for Sheypoor professional users to assist in their listing management. Technologies used: TypeScript, React, Redux, Redux-Sagas, and React-Native.

Senior Frontend Developer

at **Jumbula**   📅 4/2014 - 11/2015   📍 Isfahan, Iran

Jumbula is an online registration and management software for events in the U.S.

Mission:
Learn cutting edge frontend technologies of year, teach other team members, and use them to conduct projects.

Main projects:
- Develop event organizers dashboard with Angular.js.
- Develop a drag and drop page-builder to help users create landing pages very easier.
- Develop a form-builder(like Google Forms) to create dynamic registration forms.
- Design and develop the new website's UI.
- Work on the SVG animations handled with JavaScript. Contribute a couple of SVG animation tools to fulfill our needs.
